- **Magnetic Glass** tack board...very handy!
- **Low maintenance** and nearly indestructible!
- **Never wears out**
- **Made in the USA!**
- **Most ship in 24 hours!**

Flat Polished Edges and Square Corners

The “Professional” Series magnetic glass white board features contemporary flat polished edges and square corners, giving this glass marker board a crisp modern look. The Professional Series boards are also perfect for combining panels to form a larger expanse for applications that require even more writing surface.

The easy to install brushed stainless “edge-grip” mounting hardware allows the entire surface of the marker board to be utilized and because this is a magnetic glass whiteboard, it is also very useful as a magnetic tack board. Each of our magnetic glass dry erase boards include a magnetic pen and eraser organizer set and a set of custom glass memo magnets.

**Custom sizes and logos also available!
